Subject: Revising two project proposals and closing one project

Debbie,

There are currently three related projects on Automation/Drive Interface in T10:

- Project 1556-D, Automation/Drive Interface - Physical Layer (ADP)
- Project 1557-D, Automation/Drive Interface - Transport Protocol (ADT)
- Project 1558-D, Automation/Drive Interface - Commands (ADC)

On January 16, 2003, T10 voted to recommend changes to the scopes of ADT and ADC and to recommend that ADP {Project 1556-D} be closed. The effect of these changes is to merge ADP and ADT into one standard (still called ADT), to update the ADP project proposal to only reference ADT (removing the references to ADP) and to close project 1556-D.

From the T10 minutes:

"10.1 Revised Project Proposal for Automation/Drive Interface - Transport Protocol (ADT) (02-009) [Suhler]

Robert Griswold reported that the former ADP and ADT documents are being merged into a single document to be called ADT. He noted that changes in the project proposals are required to achieve this and that the ADI group also desires to change the completion dates for both the revised ADT and ADC drafts. Revised project proposals to accomplish this were presented in November with the understanding that they would be voted upon at this meeting.

Robert Griswold moved that 02-009r1 be forwarded to INCITS as a revised project proposal for ADT, that 02-008r1 be forwarded to INCITS as a revised project proposal for ADC, and that T10 recommend that project 1556-D (ADP) be closed. Erich Oetting seconded the motion. The motion passed on a vote of 27:0:0:13=40.

John Lohmeyer took an action item to forward 02-009r1 to INCITS for processing as a revised project proposal for ADT. John Lohmeyer took an action item to forward 02-008r1 to INCITS for processing as a revised project proposal for ADC. John Lohmeyer took an action item to report to INCITS that T10 recommends

that project 1556-D be closed.

10.2 Revised Project Proposal for Automation/Drive Interface - Commands (ADC) (02-008) [Suhler]

This item was handled under agenda item 10.1."

I am not quite sure if revisions to project proposals are processed the same as new project proposals. However, assuming they are, here are the pertinent URLs:

Revised project proposal for Project 1557-D:

<ftp://ftp.t10.org/t10/document.02/02-009r1.pdf>

Revised project proposal for Project 1558-D:

<ftp://ftp.t10.org/t10/document.02/02-008r1.pdf>

Draft T10 agenda dated at least two weeks prior to the meeting including above items:

<ftp://ftp.t10.org/t10/document.02/02-490r3.pdf>

Meeting Announcement for next T10 meeting:

<ftp://ftp.t10.org/t10/announce/ann-m054.pdf>

Please let me know if you require anything else from me.

Thanks!

John
