Ms. Deborah Spittle
Coordinator, National Standards Processing
1250 Eye Street, Suite 200
Washington, DC 20005-3922

Dear Deborah,

The T11 committee has prepared a project proposal for a project entitled:

Fibre Channel - Physical Interface - 3 (FC-PI-3).

The project is intended define the requirements for new physical layer variants used by the FC Protocol transport layer and the command sets above it, while maintaining a high degree of compatibility with the requirements in the FC-PI, FC-PI-2, and 10GFC standards.

The motion to accept the project proposal contained in T11/03-025v3 (FC-PI-3) and forward it to INCITS for further processing was accepted by a meeting vote in the April 10, 2003 meeting of T11, held in Santa Fe, NM. The motion "that the project proposal for FC-PI-3 contained in 03-025v3 be accepted and forwarded

to INCITS for further processing." carried with a vote of 38 For, 0 Opposed, with 1 Abstaining and 18 Not Voting. This meets the two-thirds rule.

The vote will be recorded in clause 10.2.1 of the draft minutes, expected to be posted within 8 days on the www.t11.org web-site. An extract from the draft in preparation of the minutes is enclosed with this letter.

Could you please take the appropriate steps to carry forward the recommendation of T11 and accept the project as a type D project to be developed within T11.2.

Thank you very much for your assistance in this matter.

Sincerely,

Bob Snively, chair TC T11 e-mail: rsnively@brocade.com
