Ms. Deborah Spittle
Coordinator, National Standards Processing
1250 Eye Street, Suite 200
Washington, DC 20005-3922

Dear Deborah,

The T11 committee has prepared a project proposal for a standard entitled:

Fibre Channel Backbone - Generation 3 (FC-BB-3)

The FC-BB-3 standard defines the mechanisms, services, and protocols to connect Fibre Channel islands over geographical areas of varying scope.

The motion to accept the project proposal contained in T11/03-165v2 (FC-BB-3) and forward it to INCITS for further processing was accepted by a meeting vote in the June 5, 2003 meeting of T11, held in Minneapolis, MN.

Craig Carlson moved, on behalf of T11.3, to accept the Project Proposal contained in T11/03-165v1 (FC-BB-3) and forward to INCITS for further processing. It was noted that this had been accepted 34-0-0 at the T11.3 Plenary, and had been posted in a timely manner. Ralph Weber requested that the project proposal be displayed. The chair noted that 4.2 should be changed to refer to FC-FS-2. This was accepted and the revised document was posted as T11/03-165v2.

The motion carried 45 For, 0 opposed, with 0 Abstaining and 12 Not Voting. This meets the two-thirds rule.

The vote will be recorded in clause 11.2.1 of the draft minutes, expected to be posted within 8 days on the www.t11.org web-site. A preliminary draft of the minutes is enclosed for your convenience.

Additional supplemental documents are provided for your information, including the May 4, 2003 revision of the agenda referencing the FC-BB-3 forwarding action and the announcement information for the next T11 meeting.

Could you please take the appropriate steps to carry forward the recommendation of T11 and accept the project as a type D project to be developed within T11.3.

Thank you very much for your assistance in this matter.

Sincerely,

Bob Snively, chair TC T11
